Schroeder Solutions launches a Facilities Maintenance Program
for businesses that need budget-conscious, adaptable office solutions

In an effort to help companies make needed improvements while keeping a close eye on their bottom line, Schroeder Solutions recently launched a Facilities Maintenance Program. Due to the current state of the economy, companies are looking for ways to save money and extend the life of its existing furniture while also maintaining an environmentally-friendly platform. Schroeder Solutions' program offers affordable office solutions that help prevent waste from piling up in a landfill.

Whether touching up a few scratched desks, cleaning panels or reconfiguring existing stations to create a new layout, Schroeder has options at every price point. The Facilities Maintenance Program delivers a "like new" office space at a significant cost savings.

Services include:

- upholstery cleaning
- wood repair and touch-up
- furniture repair and maintenance
- panel and chair re-upholstery
- space planning and design
- carpet replacement using the hassle-free Levitate lift system
- inventory and record storage

This program provides business owners with an alternative to buying new furniture. It allows companies to extend the life of their furnishings which saves the bottom line as well as the environment.

Schroeder Solutions is a full-service interiors company specializing in interior design, office furnishings, architectural products, furniture installation and corporate relocation. They are headquartered in New Berlin, WI.
