

DORAL DENTAL USA

REQUIREMENTS

Doral Dental USA has offered insurance administration services since 1992. Headquartered in Mequon, Wisconsin the company has experienced rapid growth which has resulted in the need for expanded facilities. Selecting an existing building less than 3 miles from their current location, the Doral team selected Berghammer Corporation, Plunkett Raysich Architects and Integrated Office Solutions to bring their new office environment to life.

RECOMMENDATIONS

Working in concert with the general contractor and architect, the Integrated Office Solutions team proposed new work stations to fill the block plans for the 260 employees. Together they selected the furniture and finishes to coordinate with the building style, layout and interior décor. Form, function, technology and budget were the key to developing a solution that would accommodate future growth.

PROJECT SHOWCASE

ASM – Raised Computer Floors
Mayline/Kwik File – New High Density File System and Redesigned Mail Room
Global Correlation Private Office Furniture
Paoli – Casegoods and Boardroom Furniture
Ergo Concepts – Articulating and Sit-to-Stand Keyboard
Fixtures – Seating and Common Area Furniture

RESULTS

"We are pleased that Integrated Office Solutions met our goal to create an effectively planned space that is conservative in appearance. I am proud to provide such an excellent work space for our hardworking employees."

*Ron Brummeyer
