

# NORTHWESTERN MUTUAL

## REQUIREMENTS

As a result of space and functional needs expanding beyond the capacity of the downtown campus, Northwestern Mutual made the decision to expand and build a brand new campus in Franklin, WI. As plans developed and the project proceeded into its preliminary phase, Northwestern Mutual needed to address the evaluation and expediting of all furniture, fixtures and equipment, and the relocation of over 1,200 people.

## RECOMMENDATIONS

Northwestern Mutual chose to hire Schroeder Solutions to manage the procurement of the receiving, staging, and installation of their new office furnishings. Over a six month period, Schroeder Solutions received and installed over 75 semi-trucks of furniture. While at the same time, Schroeder Solutions' field crew was managing the relocation of over 1,200 people from downtown to the new Franklin campus. This process, at times, required Schroeder Solutions to have 40 people working on the project. Personnel was assembled from all four of the Schroeder Family businesses to accommodate needs of the client.

## PRODUCT SHOWCASE

- Corporate Relocation
- Site Management
- Field Management
- Product Modifications
- Furniture Installation
- Ergonomic Support

## RESULTS

"Schroeder Solutions' commitment to the successful completion of this project was impressive. The project schedule continuously changed, but Schroeder Solutions was always able to staff the job with personnel from their three other companies to keep the project running on time. I don't know how they did it, but the great news for everyone was that they pulled it off! We were so appreciative of their performance that we invited Schroeder Solutions to our new facility and celebrated with them. This celebration, attended by over 100 employees from both companies, cemented our partnership and showed our appreciation of their support."
