Briggs and Stratton,
and Hal's Harley Davidson

Location:

Schroeder Solutions
New Berlin, WI

Project Type:

Systems Furniture Alteration

PANEL RE-FABRICATION & RE-UPHOLSTERY SERVICES

REQUIREMENTS

By changing the height, color and upholstery of their panels, organizations can avoid buying new systems furniture during a reconfiguration or remodeling. Many companies who require the ability to re-use their existing furnishings utilize Schroeder Solutions' Service Department to accomplish this.

RECOMMENDATIONS

The Service Department at Schroeder Solutions provides re-fabrication, re-upholstery and cleaning services, and has the ability to change the height of most systems furniture. We can create a fresh new look without altering the structural integrity of the product. Used furniture looks and perform like new for about a third of the cost of new furnishings.

PRODUCT SHOWCASE

- Re-fabrication
- Re-upholstery
- Cleaning of all fabric-covered-furniture
- Electrostatic Painting
- Repair Services

RESULTS

By re-using existing furniture, companies not only save money, but they also showcase their commitment to being environmentally friendly. By re-using old furniture, they prove that re-cycling office furniture works.
