

TMP WORLD WIDE

REQUIREMENTS

TMP World Wide, in conjunction with Gensler Architects, had to find a company to manage the installation of all furniture, fixtures and equipment into their new facility on the north side of Milwaukee.

RECOMMENDATIONS

Schroeder Solutions was hired out of the New York office to manage this corporate relocation that included the transportation of 650 workstations. All of the product received from overseas was picked up in Chicago, stored at the Schroeder facility and then delivered and installed at TMP World Wide's new Milwaukee office within two months.

PROJECT SHOWCASE

- Installation Services
- Project Management
- Relocation Services
- Furniture Repair

RESULTS

The general contractor, Berghammer Corporation, the architect, Gensler and the client, TMP were overwhelmed by Schroeder Solutions ability to expedite such a project.

“Schroeder Solution’s dedication and commitment was truly impressive and speaks loudly about their goal of 100% customer satisfaction”

*Lori Mathie –
TMP Facilities Manager*
