

YMCA DOWNTOWN BRANCH

REQUIREMENTS

The Downtown Branch of the Metro YMCA needed to update the floor covering of its offices and workout facility because the current floor covering looked very worn.

RECOMMENDATIONS

Schroeder Solutions recommended Milliken Modular three foot, cushion back, carpet tiles. To make the YMCA's decision on the new carpet as easy as possible the Schroeder Solutions team took digital photographs of the Y's existing space and inserted three new Milliken carpet options into the picture. An Image Series tile with bright primary colors was chosen to add visual impact along with Cleansweep for the entry ways. The installation team started at 9pm worked through the night, cleaned up and was out of the facility by the time it opened again the next morning at 5am.

PROJECT SHOWCASE

- Milliken Carpet – Image Series Tile
- Clean Sweep Entryway System
- Project Management
- Installation Services

RESULTS

"The goal of updating the appearance of the floor covering at the Downtown Branch was successful, many customers have commented on how the vibrant colors combined with a more comfortable flooring solution enhanced their Y experience."
