

Client:
Wisconsin Donor

Location:
Wauwatosa, WI

Project Type:
New Corporate Office
Design and Relocation

Wisconsin Donor

Requirements:

After many years of readdressing an existing location to suit growing office needs, Froedtert's Wisconsin Donor decided to re-locate its facility off campus. While the new location maintained close proximity to the main Froedtert campus, the new office provided ample space to meet current needs with room for future growth. Wisconsin Donor wanted to work with a full service firm that could address its relocation, design and furniture needs throughout this project process.

Recommendations:

Schroeder Solutions provided the services necessary to guide Wisconsin Donor through the relocation process. From programming and space planning to furniture specification and move coordination, Schroeder served as a one-stop shop for the Wisconsin Donor team. After functioning in a re-worked, existing space for many years, the goal of the design was to create a warm and welcoming work environment. The design team developed a plan that incorporated both private offices and open work areas in a way that allowed plenty of natural light to penetrate the space. Teknion's Leverage, Highmark Open Air seating, and Milliken modular floor covering were some of the products selected to achieve the design goals. Schroeder Solutions guided Wisconsin Donor through the process and delivered a new, refreshing environment.

Product Showcase:

- Programming, space planning, finish selection and furniture specification
- Teknion product: Leverage workstations, Expansion desk, wood, Ledger filing and storage, modular cabinetry
- Global seating
- Highmark task and side chairs
- Milliken modular floor covering
- Highmark seating
- Furniture installation
- Corporate relocation

Results:

"Thanks for the recommendation to work with Schroeder Solutions. They were so knowledgeable and helpful in the space planning and design. I've never done anything like this before and they assisted me through every phase. The entire Schroeder team from design to moving was great to work with." – Colleen McKinnon
